REMARKS/ARGUMENTS

Favorable reconsideration of this application, as presently amended and in light of the following discussion, is respectfully requested.

Claims 31-38 and 46 are currently pending in this application. By this amendment, Applicants have amended Claim 31, added new Claim 46 and have cancelled Claims 39-45.

In the outstanding Office Action, Claims 31-45 were rejected under 35 U.S.C. §102(b) as being anticipated by <u>Hosono et al.</u> (EP1 134 746 A2, hereinafter <u>Hosono</u>).

By this Amendment, Applicants have added new Claim 46. Support for new Claim 46 is found in the specification on page 65, lines 1-17, for example, and therefore new Claim 46 is not believed to raise an issue of new matter.

Turning now to the rejection of Claim 1, Applicants respectfully submit that <u>Hosono</u> fails to disclose all of the elements of amended Claim 1. Claim 1 originally recited that "the MOS transistor selectively changes an amount of charge stored in the capacitor." Claim 1 has been amended to recite that "the MOS transistor selectively changes a value of a first data stored in the capacitor." Indeed, <u>Hosono</u> does not disclose storing first data in the capacitor.

Fig. 2 of <u>Hosono</u> does not disclose first data being stored in the capacitor and there is no discussion of capacitor 48 storing data in the text of <u>Hosono</u>. Therefore, <u>Hosono</u> cannot disclose "the MOS transistor selectively changes a value of a first data stored in the capacitor."

Applicants respectfully submit that amended Claim 31 (and its dependent Claims 32-38 and 46) patentably distinguish over <u>Hosono</u>.

Consequently, in view of the above amendments and comments, it is respectfully submitted that the outstanding rejection is traversed and that the pending claims are in

Application No. 10/796,157 Reply to Office Action of June 25, 2004

condition for allowance. An early and favorable action to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,

MATER & NEUSTADT, P.C.
